## FIRE DAMAGES OFFICE ROOMS IN WASHINGTON

### $6,000,000 Postoffice Building Scarred by Flames That Started in File Room.

### LOSS MORE THAN $100,000'

### Farley at Work Three Floors Below Scene of Blaze; All Floors Flooded.

By The Associated Press

WASHINGTON, Dec. 13—The $6,000,000 postoffice building which stands on Pennsylvania avenue just four blocks from the White House was scarred today by an interior fire which blazed dangerously through early morning hours.

All the capital's fire apparatus battled flames in the new structure from which volumes of smoke billowed. More than a dozen firemen were overcome temporarily in their efforts to reach the blaze which never was visible to hundreds of spectators gathered without.

When government employes went to their offices today, the fire was reported "out," although apparatus still was on hand awaiting a final check of the structure.

**Officials Study Loss**

Officials went their rounds seeking to learn what valuable records had been lost. The blaze started in a file room on the sixth floor which officials said housed documents of the general accounting office and reclamation.

One semi-official estimate—and that admittedly rough—put the replacement damage at "more than $100,000."

Postmaster General Farley was working as usual this morning, three floors below the scene of the fire. Arriving soon after 9 a. m., he went immediately to his offices, where he surveyed heavy water damage to the expensive, mahogany covered reception room.

Farley did not go to inspect the fire damage on the sixth floor where water stood an inch deep on the floor. A heavy odor of smoke pervaded his private suite.

**Pour Water on Debris**

In the black, unlighted file room on the sixth floor firemen worked this morning dousing piles of mangled debris.

Nearly 100 janitors swept away water on the fifth, sixth and seventh floors. Earlier in the day, the water cascaded down open stairways.

Stenographers and clerks stood about the remains awaiting an opportunity to salvage valued papers or personal possessions in water-damaged desks.

Government units affected by the fire were the postoffice department, the federal communications commission, the federal home loan bank board, the Home Owners' Loan Corp., and the reclamation service.

## COLDS COST NATION $100,000,000 A YEAR

### 30,000 Deaths Between October and April Laid to Chest. Head Infections.

By The Associated Press

CHICAGO, Dec. 13—The nation's winter sneezing bill was set today at $100,000,000—no figure to sneeze at.

It will be a hard blow for Santa Claus, but the Christmas sock must be deprived of that amount for treatment of common colds until spring, declared Dr. Lloyd Arnold, of the University of Illinois college of medicine.

Doctor Arnold listed these other undesirable effects of colds during a single winter:

"Eighty thousand more deaths between October and April the majority associated with common colds and their complications.

"Two million wage earners in industry, stores and offices sick for at least eight days due to common colds and the sinus infections, sore throat, influenza, and pneumonias that follow or begin as colds. "Children losing time at school."

To cut down the cold bill, Doctor Arnold advised:

"Keep fit and healthy. Avoid excess of all kinds, and keep in good physical and mental condition. Over-eating, physical and mental exhaustion are as hazardous as living a 'hot house' plant existence. Children are more susceptible to colds than adults. Avoid close contact with them if you have a head cold."

## ROBBERS SOUGHT AFTER MURDER

By The Associated Press

CLEVELAND, Dec. 13—Police sought robbers today after Herman Wine, 70, had been found dead with a bullet wound in the head in his small warehouse office. A safe with about $30 in it and which Wine usually carried during the day was empty. No one saw the slaying, police said.

## Powers Would Give Duce Two-Thirds of Ethiopia

### Ceded Area Would Include All Tigre Province Except Aksum.

### RECTIFIES 2 FRONTS

### Yields Aussa to Selassie and Somaliland Border Strip to Italy.

BY CHARLES H. GUPTILL
Associated Press Foreign Staff

ROME, Dec. 13—The Franco-British plan for peace between Italy and Ethiopia, made public today, would give Italy sovereignty or control over approximately two-thirds of Ethiopia.

An Italian government spokesman said his government could make no comment on the proposal at present but that "they are being examined with care." There are five points to the plan as follows:

1. Italy would get sovereignty over Tigre province, already conquered by her military forces, except for the sacred city of Aksum and a corridor connecting that city with Ethiopia.

**To Rectify Frontier**

2. The Danakil frontier would be "rectified" so as to give the Aussa region to Ethiopia in full sovereignty;

3. The Somaliland frontier would be "rectified" running from the Kenya-Somaliland boundary intersection to Gorrahei, west of Gurnmdah, to the intersection of the 45th degree and the British Somaliland frontier;

4. Ethiopia would get a free port on the sea, preferably Assab, and a corridor leading to it; France and Great Britain would undertake to get from Ethiopia guarantees against the importation of arms and munitions;

5. Emperor Haile Selassie to grant Italy a zone of influence running from the new Somaliland frontier established under point 3 and extending all across Ethiopia from the 35th to the 45th meridians of longitude and northward to the 8th parallel; Emperor Haile Selassie would have sovereignty over his zone of Italian influence but would have an advisor who might or might not be an Italian.

There would be a League of Nations' commission to advise the Ethiopian monarch on internal affairs, but no member of this commission could be a citizen of any other interested power.

**Italian Company To Rule**

In the Italian zone of influence, the active administration would be through an Italian privileged company with exclusive economic rights which, however, would have to recognize the existing property rights. This company would be obliged to contribute to the ex-

## MANIA CAUSES DOCTOR KILLING

### Russian Formerly of High Standing Kills 2 Scientists; Blame Persecution Complex.

### FIRED DUE TO TEMPER

### Had Been Trained in Medicine and Law and Held Army Position in Russia.

By The Associated Press

NEW YORK, Dec. 13—The fatal shooting of two dental school professors at the Columbia Presbyterian Medical center was blamed by the authorities today on the "persecution" mania of a frustrated man who lost his job because of ill-temper.

The assassin, who killed himself, was Victor Koussow, 52, whose papers showed he once occupied the high place in Russian life he resented others holding there.

"Koussow was undoubtedly suffering from a persecution complex," said Deputy Chief Inspector David J. McAuliffe. "You can tell that from his actions and the note he left." McAuliffe said he regarded the case closed. Koussow's victims yesterday were:

Dr. Arthur Taylor Rowe, associate dean of the dental school.

Dr. Paul B. Wiberg, associate professor of dentistry.

**Wounds Third Doctor**

Another of the six cartridges Koussow fired from a pistol before he levelled it at himself, wounded Dr. William H. Crawford, also an associate professor.

An outline of Koussow's life, found typewritten in his book-strewn apartment, showed he had been trained in medicine and in law, had held high army commands in the white Russian forces and in the civic affairs of Nicolaieff, a Russian city.

His familiarity with medicine, doctors said, had placed Koussow in the medical center with the official capacity, "technician."

Koussow, who resented his position and spoke frequently of his noble family, dropped a letter in the hospital as he dashed in search of his victims.

"I am going to kill Dr. Rowe and two or three others," it said.

Koussow, a dignified though glowering and stoop-shouldered man, was discharged yesterday by Dr. Rowe who had warned him about his irritable manner.

In the afternoon he returned to Dr. Rowe's office, whipped the gun from his gray smock and fired two shots.

He ran to the laboratory floor two flights up, where he found Dr. Crawford and Dr. Wiberg seated at a table, heads bent over x-ray slides. Koussow, at the threshold, shouted and fired.

Dr. Crawford fell with a bullet in his back.

Dr. Wibert lunged at Koussow who fired again. Bullets struck the doctor in the heart and chin and he dropped to a desk.

Koussow fled to a corridor filled with doctors and nurses, and shot himself.

## TWO POLYGAMISTS FACE SENTENCING

By The Associated Press

KINGMAN, Ariz., Dec. 13—Two polygamists faced sentencing today for "open and notorious cohabitation."

Both I. C. Spencer and Price Johnson were convicted despite their protest "plural marriage" was a part of their religious beliefs and despite their attorney's plea that President Roosevelt only this week reiterated the American right of freedom in religious worship. The maximum penalty is three years imprisonment.

## WPA Sidewalk Project Set Up in Business Area

### Repair and New Construction Proposed in Plan To Give 105 Work; Merchants' Aid Sought.

A proposed WPA project to build new concrete sidewalks along the business district sections of four of Marion's principal streets will be laid before city officials within a few days, O. N. Essex, WPA engineer for Marion county, announced today.

It is proposed to rebuild sidewalks along both sides of Center street from High street to Oak street, Main street from Church street to the second alley north of the Erie railroad, State street from Church street to the Erie railroad tracks and Prospect street from Church street to the Erie tracks.

Only in sections where the condition of walks is such that repairs would be impractical is it proposed to build new walks.

City officials, including Mayor Clarence A. Bolin and Service Director C. E. Mercer, promised the proposal immediate attention and said they will do everything possible to get the program under way.

**Work for 105 Men**

If the project, as now planned, goes through a force of 105 WPA workers will carry on a three-months program of sidewalk rebuilding in the business district at a total cost of $33,853. Of the total, the federal government has indicated willingness to pay $20,507.

Officials said the only obstacle in the path of the program is the financing of approximately $7,000 of the $12,738 the city is expected to pay. The city, by furnishing trucks and a concrete mixer, could give the equivalent of cash for part of its share of the expense, but approximately $7,000 required for materials must be furnished in cash, officials said.

There is no money in the city treasury available for appropriation for this purpose, and the city has reached its legal debt limitation and consequently can not issue bonds without a vote of the people, Service Director Mercer said.

He said the only plan in mind now for financing it is to call upon Marion merchants to furnish approximately seven cents a square foot for the rebuilding of walks in front of their respective business places. This plan, he explained, would not work a hardship on the individual business places, giving them new walks at a fraction of the amount it would cost to have the walks built commercially.

**Cites Objection**

The only objection to this plan, he said, is that some merchants or the owners of the business rooms they occupy may refuse to contribute toward the program. This would result, he said, in improvement of some sections of walks and neglect of others, a condition that would be unsatisfactory. He also said there is no one available to canvass the merchants to learn if they are willing to help finance the program.

Mr. Essex estimated it would cost a merchant who has a 30-foot frontage of sidewalk that is 10 feet wide

## Science Declares Rip Van Winkle Act Is Possible

### Rockefeller Institute Authority Envisions Suspended Animation Hundreds of Years.

By HOWARD W. BLAKESLEE
Associated Press Science Editor

NEW YORK, Dec. 13—Keeping a man in suspended animation for hundreds of years so that he can come back to life in the future century of his choice is envisaged by Dr. Alexis Carrel of the Rockefeller Institute for Medical Research, an expert on cell immortality.

He described a drying out process by which this may be possible, to a meeting of the New York Academy of Medicine last night.

The possibility, he said, is at present remote. It could be done only to a few selected individuals.

**Racks Clairvoyance**

Dr. Carrel said that clairvoyance, which he defined as the ability to see the past and the future, is a scientific fact.

It explains, he said, much of the after-life evidence which spiritists attribute to those now dead. But he said it is far from unreasonable to believe that some part of human *personality may escape death.*

Dr. Carrel held out no hope of taking an entire body apart and putting it back together to make a new man and a new life out of organs, kept alive outside the laboratory, which seem to be immortal by themselves.

But he foresaw real rejuvenation, changing an old man back to youth, as a possibility in two or three centuries, and disease abolished in perhaps eight centuries.

**Drying Plan Feasible**

More remote, but a possibility, would be the drying or dessication process for keeping a man alive. The model for this, he explained, already exists in nature, and has been applied to organs of lower animals.

The model is an insect, tardigarum, which stops its metabolism but does not die when dried even for several weeks. Moisten it with water and this animal comes back to life.

The remarkable fact about this

## *Unlucky Friday Holds No Terror for Celebrants*

The second and last of the 1935 jinx-ridden Friday the Thirteenths will roll off the calendar today, and at noon it appeared that Marion residents were escaping any dire effects of the day. The other unlucky day was in September.

One new Marion resident joined the ranks of the Friday the Thirteenth birthday celebrators when a son was born at 3:30 a. m. at the City hospital to Mr. and Mrs. G. J. Wilhelm of 144 East Farming street.

Raymond Fout of North State street reached his majority today and joining him in a family dinner tonight will be his uncle, Forest Fout of the Hillman-Ford road, who also is observing a birthday anniversary today. Mrs. Minnie Fout, mother of the 21-year-old celebrant, will serve the dinner. The uncle spent today hunting.

Billy Gries, son of Mr. and Mrs. John Gries of Courtland terrace, took no stock in the fact that he is celebrating his fourteenth birthday anniversary today, and went as usual to his ninth grade classes at the Vernon Heights Junior High school.

## U. S. TO RETAIN NEUTRAL STAND

### Continuation of Present Law Will Be Proposed to Next Congress by Roosevelt.

### WOULD END IN FEBRUARY

### Increase in Naval Reserves Subject of President's Talk With Navy Leaders.

By The Associated Press

WASHINGTON, Dec. 13—Continuation, in some form or other, of the temporary neutrality law will be proposed to the next congress by President Roosevelt.

He told his regular press conference today that the present neutrality law enacted last August, expires next February. Obviously he is trying to get something to take its place.

However, Mr. Roosevelt said it would be a couple of weeks before his proposal on neutrality is put into final form.

Mr. Roosevelt discussed a number of subjects with several score newsmen. They were brought up by questions after his opening announcement that there is no news.

**Discuss Reserve Increase**

Asked about yesterday's two-hour talk with the high command of the navy, the President said this related entirely to a discussions of increasing the naval reserves, a step he favors.

He mentioned a figure of 150,000 for reserves of all classes, but added that this would take a good many years to work out. Mr. Roosevelt said there are now from 22,000 to 25,000 naval reserves, a number he considers wholly inadequate.

As he puffed a cigaret, the President emphasized that the London naval limitations conference now in session was not discussed in the navy talk yesterday.

## LOTTERY PROPOSAL LOSES SECOND TIME

### Measure To Provide Relief Funds Defeated, 59 to 64, in Ohio House.

By The Associated Press

COLUMBUS, O., Dec. 13—A state operated lottery, proposed to bolster Ohio's revenue raising machinery, failed to surmount a rural blue and lost out for the second time in the house of representatives.

The measure, intended to provide funds for relief and other emergency purposes, was defeated late yesterday 59 yes to 64 no. It required 81 votes for adoption.

Reps. Stanley McKie and Albert J. Mayer Jr., Cincinnati Republicans, advanced the lottery plan as a means of obtaining needed funds without assessing more taxes.

Legalization was proposed by an amendment to the state constitution, which if adopted by the legislature would have been submitted to the voters next May.

It was the second time that the Cincinnati Republicans had sought to break into the remunerative lottery field to raise state finances.

"The lottery," Mayer said, "is the only voluntary taxation system I know about. If a man wants to buy a ticket, he can, but if he does not desire to purchase a ticket, then there is no compulsion to make him contribute."

Senate conferees rejected a move by Lloyd, Republican of Portsmouth, to have included in a taxation program provisions for adequate school foundation funds. Lloyd said the sales tax and relief program as now drawn would lop $10,000,000 from the $48,000,000 earmarked for schools under the Traxler-Keifer foundation plan.

## SHOW TRAIN SENT BY WAY OF MARION

### Carrier Rerouted After Collision Near Newark.

By The Associated Press

NEWARK, O., Dec. 13 — A show train special carrying the cast and equipment of the "Folies Bergere" was delayed at Kylesburg, seven miles west of here, this morning when its locomotive struck a freight car which buckled from a train on the opposite track.

Pennsylvania railroad officials, who were operating both trains over the Baltimore & Ohio tracks between Columbus and Newark, said there were no injuries to crews or passengers. The show train returned to Columbus under its own power and was rerouted east by way of Marion. It was enroute from Indianapolis to New York City.

Railroad officials said a faulty airline caused the derailment of several cars of the westbound freight train. One car buckled onto the eastbound tracks and was struck by the show train's locomotive, which had reduced its speed as it approached the freight train.

## JAPANESE WOO FRANCE, ITALY

### Seek Their Support for Demands for Sea Power Equality Others Deny.

### REVISE THEIR REQUESTS

### Authorities Doubt New Tactics Will Prove Successful for Nippon Cause.

By The Associated Press

LONDON, Dec. 13—Japan's delegation to the international naval conference maneuvered today to win the support of France and Italy in the Asiatic empire's demand for sea power equality.

The Japanese revised their request for a common upper limit on naval tonnage to include the five powers—Japan, the United States, Great Britain, France, and Italy—instead of the first three only, as previously suggested.

The French and Italians opposed the Japanese demands yesterday because they were not included.

**Concession To Russia**

Japan granted Soviet Russia the right to a fleet equal to its own in arguing for tonnage equality for all nations.

This widening of the scope of Japan's position was regarded as one of the most significant developments of the five-day-old conference.

The delegation from Tokyo developed the theory that a single standard should apply to all nations indiscriminately, regardless of their defense requirements or colonial commitments, other delegations reported.

**Doubt They'll Succeed**

Informed sources said they did not consider the new tactics would prove successful, although they will bring the French and Italians more into the general debate.

As a result of the new Japanese plan, the French and Italians are expected to present more detailed viewpoints when the session is resumed Monday after a week-end of conferences within the delegations.

In today's session, the spokesmen of all five powers were asking and answering questions of highly important aspect on the total tonnage controversy precipitated by the Japanese demand for naval equality with the United States and Great Britain.

Admiral Osami Nagano, chief Japanese delegate, led off today's session. After the four other powers and three dominions joined yesterday in rejecting his stand.

**Some Still Optimistic**

Some optimism still prevailed in all delegations that compromise was yet possible to permit the conference to achieve its aim of a new agreement to replace the Washington and London naval limitations treaties, expiring at the end of 1936 as a result of Japan's denunciation.

Both the British and Americans insisted on continuance of the 5-5-3 ratio, contending Japanese demands for equality in total fleet tonnage were inconsistent with Japanese demands for equality in security, Britain and the United States having greater defense requirements than Japan.

## OHIOAN CHALLENGES U. S. TAX ON HOGS

CINCINNATI, O., Dec. 13—An attack upon the constitutionality of the processing tax on hogs was on file in United States district court today, brought by William Hieb of Hamilton, O. Hieb seeks to restrain Internal Revenue Collector T. J. Conner from collecting $1,716.94 in processing taxes.

### Levy Collection by Farmers Limited to Roadside Establishments; Law Ends March 31, 1937.

### YIELD SPLIT 60-40

### Schools Will Get 60 Per Cent and Counties 40, of Which 12½ Per Cent Will Go to Townships.

By The Associated Press

COLUMBUS, O., Dec. 13—Senate and house conference committees agreed today on a sales tax bill which the two branches of the legislature had passed in varying forms. They prepared to report at once.

The committee agreed to restore all farmer exemptions to the 3 per cent tax which the senate had removed except that farmers who operate roadside stands must collect the tax.

**Food Exemptions Out**

Food exemptions, which the house voted to take effect Jan. 1, 1937, were eliminated by the conference for the life of the bill, Jan. 1, 1936, to March 31, 1937.

Conferees decided to allocate collections 60 per cent to schools and 40 per cent to counties, with townships to receive 12½ per cent of the counties share.

Conferees on the revised state budget remained deadlocked, with two house members refusing to accept the house approved budget as a basis of negotiations.

**To Boost Relief Bill**

Democratic Senate Leader Paul Yoder said the senate will take a house approved bill providing $1,500,000 for relief and increase the appropriation to $4,000,000. He said he hoped the larger allotment would provide sufficient funds for most of the 19 counties through March.

Gov. Davey hinted directly he would veto the entire appropriations bill if the legislature insisted on restoring $3,865,148 as proposed.

**Denied Committee Seat**

Maneuvering threatened to complicate committee consideration of the appropriations bill. House Democratic Floor Leader Frank Uible of Cleveland denied a place on the committee to Chairman Julian W. Schweller, Democrat of Putnam, of the house finance committee, breaking legislative precedent. Uible acted in the absence of Speaker J. Frank Hittinger.

Observers said Schweller was left off because of his opposition to Gov. Davey's original transfer bill. That bill would have prevented any increase in the appropriations.

The three members named to the committee all fought to hold the appropriations near Gov. Davey's limit when the house was drafting its revision. They are Reps. Clark K. Hunsicker, Democrat of Pickaway, Samuel A. Anderson, Democrat of Licking, and P. H. Rogers, Republican of Lorain.

**Told To Ignore Davey**

House Republicans caucused after selection of the committees and instructed Rogers to use his best judgment "regardless of the governor's wishes." The same instructions went to Rep. F. E. Ward, Republican of Geauga, on the house conference committee on the sales tax.

## MYERS GIVES LANDON DATA ON ELECTIONS

### Request for Information Made Through Harry M. Daugherty of Harding Regime.

By The Associated Press

COLUMBUS, O., Dec. 13—Secretary of State Myers sent today to Gov. Alfred Landon of Kansas, often mentioned as the likely Republican presidential possibility, information on requirement for entering Ohio's presidential preferential primary.

The request for the information, Myers said, was made through Harry M. Daugherty, attorney general in the Harding administration. Landon is a former Ohio resident.

Myers informed Gov. Landon that he could file as a candidate in Ohio or that a friend could file as a candidate for him. This would not carry any authority, however, for delegates to pledge to him.

Ohio Republican leaders agreed recently to send a "favorite son"—or uninstructed—delegation to their party's national convention.

Daugherty could not be reached immediately for comment as to whether he initiated the action or whether Landon requested him to obtain the information.

## *Santa Used Lavish Hand in Designing Christmas Toys Found in Marion Stores*

BY HALLIE HOUCK

Ambling through the Marion stores' toy departments is always the best part of the shopping sleuth's annual meanderings in search of what's what for the Christmas tree, and this year's tour was no exception.

Toy shopping was rather a spree, winding up the mechanical playthings, using remarkable will power to keep from mixing the intriguing liquids that come with the chemistry sets — refraining only because an alarming lack of knowledge of just what to mix with what might result in a grand blow-up of the entire department—and still gazing with yearning at the streamlined velocipedes that made such a hit last year.

Marion's stores offer an excellent array of toys priced to fit the purse of everyone whose pleasure it is to watch a child's eyes open

wide with excitement Christmas morning when the heart's desire is found under the tree.

Remembering "telephones" that were tin cans nailed inside the cornerib and the garage, with yards of wrapping string for a connecting "wire," the toy shopper was drawn to the new tele-sets with two complete instrument boards to transmit messages from one station to another and Morse code directions to instruct budding telegraphers.

## DOG TAG FEES REMAIN SAME HERE NEXT YEAR

### Commissioners Establish Charges at $1 $3 and $10; 4,995 Licenses Sold in 1935, Records Show

Although dog tag fees in neighboring counties for the coming year have taken a jump he...e charge in Marion county will remain the same the game and dog ...ale here Monday with the deadline set for Jan. 20.

This was made known yesterday afternoon when county commissioners set the fees equal to the year. The schedule follows: male dogs and spayed female $1 female $3 and kennel fees $10.

The proceeds in Marion county is the minimum permitted by state law. County Auditor Harry V. Mo...as pointed out. The new fees are determined in accordance with the receipts and expenses of the present year. Those not getting their tags by the deadline date of Jan. 20 will be compelled to pay $1 penalty. Dogs not bearing tags within a reasonable length of time after the deadline are likely to fall into the hands of County Dog Warden Elmer Ullom.

Dog license fees in Morrow and Hardin counties announced this week took a sharp jump over he current year the figures show. The boost in price is a result of higher sheep claim costs during 1935 commissioners in those counties said.

Fees for Morrow county dog owners follow: male dogs and spayed females $1.70 females $3.10 and kennels $15.

Fees for Hardin county follow: male dogs and spayed females $1.25 females $3.75 and kennels $12.50.

License costs in Morrow county the last several years have run $1.25 $3.75 and $12.50 and in Hardin county $1 $3 and $10 the same as the Marion county fees for the coming year.

There have been 4,995 dog tags sold in Marion county to date this year representing an increase of 1,969 over the 1934 figure. The increase in sales is attributed to the drive put on by county commissioners early in the year to enforce the dog tag laws and to the aggressiveness of the county dog warden in carrying out his duties. Elmer Ullom was appointed warden the first of July.

The financial condition of the dog fund and the amount paid out in sheep claims during the year will not be available until Auditor Morris closes his books at the end of this month.

## WHERE MONEY GOES SURVEY SUBJECT

By The Associated Press

WASHINGTON, Dec. 13—The ...ranch problem—what becomes of ...farm's income—will be investigated by the government.

Secretary Perkins said today a survey of spending distribution—who has the income be derived from wage earner pay or chipping bond coupons—would be made as a work relief project. She said demands from both business and labor prompted the move.

The project will employ 4,500 persons, taken from relief rolls and will require about 3,500 man years of relief work. The cost has not been determined.

Headquarters for the survey are to be established in Providence, R. I. Columbia, S. Carolina, Denver and Portland, Ore.

## NORRIS THE GROCER GUILTY OF PERJURY

### False Testimony Before Senate Committee Cited

By The Associated Press

LINCOLN, Neb., Dec. 13—Grocer George W. Norris, 36, formerly of Broken Bow, Neb., who in 1930 attempted to become a candidate against Sen. George W. Norris, Republican of Nebraska, today stood convicted of perjuring himself before a U. S. senate committee which investigated his case.

A federal district court jury last night found the grocer willfully, knowingly and corruptly testified falsely before the senatorial committee.

The grocer faced a possible maximum sentence of five years and a fine of $1,000.

Grocer Norris was convicted of falsely telling the senatorial committee he received no money and no assurance of financial aid when he became a candidate for senator. He based his defense on the assertion he later corrected his first testimony, which he admitted was "not true."

## Your Health

BY DR. R. S. COPELAND

### Child's Cough.

Never disregard the persistent cough of a child. Give it the attention its importance demands.

Extreme cold weather means greater exposure to conditions which encourage coughs and colds. Special attention should always be given to one who has repeated colds and chronic cough.

All children are more or less susceptible to infections of the upper part of the breathing apparatus. It is well to say that such infections could be avoided. Teach your child to be careful when in the presence of children who sneeze and cough. The organism responsible for carrying the infection is contained in the discharges of the nose and throat. Carelessness regarding these discharges causes the germs to be transmitted to others.

The child with a running nose, a cold or persistent cough should have it explained to him how great is the danger of spreading the infection to others. I am sure that a child who is taught these truths will take pains to avoid colds as well as do his part in preventing their spread.

The child with a chronic cough should not be permitted to attend school or to mingle freely with other children. Of course there are many causes for this symptom. It may be due to a quiescent or prolonged attack of whooping cough. By the way, so long as the whoop is present the disease can be transmitted to other children.

Chronic bronchitis is the most common cause of cough in childhood. That ailment is usually quite prevalent at this time of year. It is the result of a chronic irritation of the large air pipes of the lungs. It can be traced to some infection of the air passages including the nose, nasal sinuses, tonsils or larynx.

Children who suffer from chronic bronchitis are extremely susceptible to colds and acute infections of the upper air passage. They readily contract head colds, nasal sinusitis and tonsilitis. Some of them too are victims of hay fever and asthma.

Catarrhal inflammation of the larynx or windpipe and better known as croup is another disorder of the breathing organs that must not be confused with the chronic cough we have been discussing. In this affliction the child first suffers from hoarseness and some time during the night is awakened by a barking cough.

In every case of persistent cough it is best to consult with your doctor. Bear in mind that what may appear to you to be a trivial thing, may in reality be the forerunner of some serious disorder of the lungs.

# TOWNSEND TO ENTER CANDIDATES IN 1936

Plans To Form Party and Select Presidential Congressional Nominees

By The Associated Press

WASHINGTON Dec 13 Action to form a political party and enter candidates for the presidency and congressional seats in the 1936 election was announced today by Dr F E Townsend co-author of the Townsend old age pension plan Dr Townsend said the party would be known as the National Progressive party and would nominate candidates for all offices to be filled in the election

He said it is his intention to have a ticket in every state in the union before the party enters the campaign to present its platform to the people

He refused to say who would be the party's candidate for president

He said however that Dr J Clarence Hunter the founder of the movement would not run

Townsend said that Chicago Cleveland and Los Angeles had asked that a national convention be held in their particular communities

He claimed affiliations of 5 000 000 members of 7 000 clubs and said the total support for the movement consisted of about 60 000 000 persons

# TATTING BARTENDER ANSWERS FAN MAIL

### Gets Bid From Arizona Woman and New York Night Club, Also Business Proposal

By The Associated Press

MILWAUKEE Dec 13—Harry Haberman the bartender who fills a barrel of beer while batting an eye took time from his Christmas rush today to reply to his fans

It started when female fans was spread that Harry a former star athlete did fine fancywork when not busy serving beer at his Wauwatosa tavern They read about Harry in Ken magazine Some I Love Called Reading Law M Minnie Ott Cleveland Fla M Minnie Ott Miami—and wrote to him

A young widow in Arizona wanted Harry to live with her and her mother on their ranch where all three could crochet and knit in contentment

A New York night club wanted to put him in an act there Harry didn't care much for that offer—it would cheapen his work he mused

An heiress offered Harry a chance to go into business manufacturing the Haberman crochet ball holder Its inventor had the patent Harry the fame Perhaps they could get together on a 50/50 basis wrote the inventor

They call me in the middle of the night to ask me about my needle work said Harry Letters from all over the country ask for my patterns They introduced me at a show and they come to see me crochet and get my autograph

"They are running me ragged" he added If they don't stop pretty soon I'll never get my Christmas presents or bed spread finished Harry's bed spread is his pride One-fourth done after two years of work he estimates it will be worth $1500 when completed

# GOVERNMENT-UTILITY SCRAP IN DEADLOCK

### Cummings Asks Court To Limit Proceedings to Lone Bond & Share Case

By The Associated Press

WASHINGTON Dec 13—The government and the utilities were in a tight deadlock today over the proper way to test the constitutionality of the Roosevelt holding company law The impasse appeared unlikely to be broken for at least two weeks

Attorney General Cummings stepped into District of Columbia supreme court yesterday to argue that the test case should be narrowed down to a suit the government has brought against Electric Bond & Share Co's in New York

Cummings asked that seven injunction suits brought in the local court by utility firms be stayed pending a United State supreme court ruling in the Electric Bond & Share case

The injunction suits attack the holding company law which would regulate utility holding firms and eliminate those deemed unnecessary About 50 such suits have been brought throughout the country

Suits have been rained upon us from every point in the zenith the justice department to a pugilist declared Cummings who compared list compelled to fight a ring full of opponents at once

But John C Higgins New York utility lawyer accused the government of handpicking its test case and said it did not cover all points involved in the others He indicated a willingness to negotiate to narrow down the court battles if the utilities could have a say in choosing the battleground

# Beautiful Girls Prefer Homely Men As Mates

### Feel Sense of Security and That Life With Him Will Be Harmonious

By The Associated Press

HOLLYWOOD Calif Dec 13—Dr Paul Popenoe brand the hand some men of Hollywood today with the observation that beautiful women prefer their husbands homely

And from more than a hundred screen beauties there was a chorus of ayes

In a homely man the woman first sees the essential thing security said Dr Popenoe who is director of the Los Angeles Institute of Domestic Relations

"She realizes life with him will be harmonious He usually realizes his own failings and goes to the extreme to please a beautiful wife while a handsome husband usually is different wishing to please nothing but his own ego

**Beauties Take Vote**

Hearing this the film beauties took a vote

Only three girls out of the 50 in the chorus voted for handsome men as husbands In another chorus all but three out of 75 favored mates with plain profiles

Lorraine Crawford a Des Moines fan girl emphasized her vote by saying

"All dark and handsome usually describes a man who is conceited selfish and thoughtless one who usually hasn't had to use whatever brains he ever had Give me a plain man with character and intelligence

Undoubtedly a lot of handsome men are fine fellows put in Dorothy Belle Dugan but when a girl marries she wants something more solid and substantial than a collar ad

**Demand Character**

And this from Anya Taranda who recently announced her engagement to Harold Arlen band some song writer

Most girls when they fall in love don't care whether he's got a broken nose pug ears or what have you A good looking man can have character although I agree he's less likely to have it

Three girls who agreed to disagree with Dr Popenoe declared It's up to the woman to make the security in marriage

And don't forget they added Its easier to look at a handsome man which is important when you have to do it every day

# AID FOR 19 COUNTIES PUT UP TO SENATE

(Continued from Page One)

bond refunder law developed further with introduction of a repeal bill

Reps W P Van Nuss Republican William M McCulloch Republican of Miami and George H Kirkpatrick Republican of Kenton introduced the repealer

With the proposed repealer was a measure to authorize counties to use 10 per cent of their own portion of automobile license fees to pay their outstanding road assessment bonds They could use their share also for current operations At present this money goes for road purposes only

Clark county officials have obtained a temporary injunction against enforcement of the Armbruster Lawrence law and plan to carry the fight to the supreme court to test the law constitutionality

Its opponents contend that 18 counties benefit at the expense of the other 70 The law takes 10 per cent of the total automobile license fees to refund county bonds This reduces the share which all counties receive on a basis of automobile population from 47 to 37 per cent

**Drivers License Made Law**

The Handley Kane automobile drivers license bill finally became law with Gov Davey's signature Effective Oct 1 next it will automobile association officials predict reduce the traffic fatality toll by at least 15 per cent

The law is a companion measure to the four months old motorists financial responsibility law This law has deprived 3"1 persons of their driving privileges mainly for driving while intoxicated

After Oct 1 every motorist must obtain a drivers permit at a cost not to exceed 40 cents Habitual drunkards narcotic addicts insane epileptic feeble minded persons and others unable to understand highway signs or warnings may not take out licenses

# POWERS OFFER DUCE TWO-THIRDS ETHIOPIA

(Continued from Page One)

pense of the social improvement of the native

The proposal was offered with the hope that Premier Mussolini would answer it as speedily as possible

It urged him to accept the plan in principle as a basis for discussion without prejudice for the final settlement

The preamble to the proposals said the settlement of the Italo-Ethiopian dispute affected the whole League community and the league committee of five which helped Great Britain and France find a solution

Meanwhile Emperor Haile Selassie asked the League of Nations to call a special meeting of the league assembly on the ground that the Franco-British peace plan violated the spirit of the league covenant

Many of the smaller nations in the league were represented as opposed to the plan on the grounds that it would give Premier Mussolini his objective in east Africa

**Likely To Be Rejected**

Rebellion against the Franco-British proposal for peace in the Italo-Ethiopian war threatened in the house of commons today and the impression grew in Geneva the plan would be turned down

By letter and telegram British constituents protested to their representatives in parliament against the war settlement suggestion which would give Italy part of Ethiopia

The sentiment reflected the reported efforts of smaller powers at the league conference to exert their influence for peace terms which would uphold league principles without approving Italian aggression by a grant of territory

In addition to the Ethiopian message the league received a protest from Premier Mussolini that the Ethiopians were abusing the use of the Red Cross emblem

The Italian protest said photographs taken by Italian airmen at the bombing of Dessye last week showed that buildings and tents bearing the red cross emblems did not appear to be damaged

Part of an American Seventh Day Adventist hospital at Dessye was reported wrecked by bombs At least one Ethiopian Red Cross tent was said to have been hit

The communication added that on the day after the bombardment Italian airplanes again flew over Dessye without bombing it and found everything covered with Red Cross emblems including the encampment of soldiers and even the airdrome

The communication stated Italy formally denies that any open (unfortified) town has ever been bombed by the air force in east Africa because every action always has been directed solely against military columns and concentrations

The protest concluded with the intention that Ethiopian abuse of the Red Cross subverts the whole foundation of any international convention concluded with a humanitarian object

At Dessye Emperor Haile Selassie said personally he would summarily reject peace proposals which provided for partition of Ethiopia

**Report Hail in Defeat**

An official communique from Ababa reported the defeat of an Italian post near Daabu north of Makale by a strong Ethiopian patrol Seven Italian soldiers were reported killed and an undetermined number wounded

The Italians fled burning villages behind them the communique said

The opposition from the British countryside led to comment in the parliamentary halls threatening to oust Foreign Secretary Sir Samuel Hoare unless the League of Nations voiced the peace offers formulated by him and Premier Pierre Laval of France

A mutiny in the British cabinet was brewing informed sources said under the leadership of Neville Chamberlain chancellor of the exchequer

**Its Failure Predicted**

Unofficial advices from Geneva predicted the failure of the proposal before the league council next Wednesday when that body begins its considerations

The committee of 15 called to deliberate to consider new penalties against Italy for aggression found itself in the midst of the peace terms controversy with only a survey of the effectiveness of existing sanctions in prospect for its session

Authoritative sources at Rome said Pope Pius was influencing the attempts for peace Three papal nuncios—in France Poland and Austria—were named as having played important parts in the movement to bring the war to an amicable end

**Claims Plan Will Fail**

The Franco British plan may fail and very likely will fail Alfred Duff Cooper British's new secretary of war said to his London constituency last night

The failure is likely the minister said because it is a very difficult thing when a war has been going on a few months to find terms to satisfy both sides

From Premier Mussolini came no indication of Italy's stand on the proposal

Movements of Italian troops in Africa were suspended the Rome government said while action continued in the diplomatic chambers Two thousand more troops were sailing from Naples and further shipment of supplies were reported imminent

## *Reds Demonstrate Near Geneva Hotel*

GENEVA Dec 13—A group of about 50 communists demonstrated today in front of the hotels housing the British French and other delegations to the League of Nations

Spectators said they burned the British flag to which an oil can was tied and shouted "shall we fight for this"

They waved banners reading "Down with war Down with Sanctions" The police dispersed them making no arrests

# OHIO MAY ABANDON ITS LIQUOR AGENCIES

### Would Substitute Part Time Stores Where Necessary To Replace Agents

By The Associated Press

COLUMBUS O Dec 13—Ohio's department of liquor control may abandon a major phase of its program to control sale of liquor liquor agencies in private stores and substitute part time liquor stores where necessary

The liquor board with no advance warning asked Director James W Miller yesterday to open no new agencies and to renew no expiring contracts in cities

For rural communities now served by agencies it instructed Miller to investigate the possibility of establishing part time state stores

A resolution embodying the instructions declared the legislature never intended to have agencies located in cities liquor should not be sold at places of business patronized by children and agencies are not conducive to the best interests of state monopoly in Ohio

Operators of agencies mostly druggists carry liquor stocks along with their regular merchandise They receive six per cent on their gross sales The department has established agencies in rural districts not served by state stores and in urban districts where it was felt that state stores did not provide adequate service

The resolution officials said would affect 56 agencies in urban districts The remaining 100 are in rural districts

By The Associated Press

NEW YORK Dec 13 There is an unusual thing about this season's crop of Manhattan debutantes They're hungry and they eat

They eat praline ice cream with chocolate sauce attack their soup eagerly and do right by sweet breads One of their favorite breakfast dishes is good substantial corned beef hash

Authority for this is Charles maitre d'hotel at a debutante rendezvous He was asked how about it? after some of the season's buds were seen consuming food at great rate

Debs he replied no longer nibble lettuce leaves They like ham and eggs and even eat the candles that were just an ornament on the table a few years ago

He also said while on the subject of debs and dining

That the average woman would gain 50 pounds in one winter if she ate debutante party food without dancing until dawn

That debs always lose weight during the party season because they're always on the go

# MARION COUNTY FAR JOIN COOPERATIVE

### Creamery Project Seen as Boon to Dairymen in Ohio Area

A movement to organize more than 1,500 farmers of Marion and 11 other counties in central western Ohio into a cooperative creamery enterprise designed to market 1000 000 pounds of butterfat annually got under way today, The Associated Press reported.

Groundwork for the enterprise was laid Wednesday when representatives from the 12 affected counties met in Sheb and completed preliminary organization plans Those from Marion county at the conference were H H Pennger of near Waldo president of the Marion County Farm Bureau Cooperative association G M Dalton of Smeltzer road a director in the North Central Dairy Marketing association and Paul Lawrence of the Patton place member of the board of directors of the Marion county Milk Producers association

Mr Dalton was named as one of the directors of the creamery enterprise and will represent Marion county at future meetings of the organization the directors of which will be held in Columbus further organization plans

Mr Dalton said in Marion county dairy products should be added in the cooperative here will be applied to enterprise follow meeting he said

The significance of the cooperative idea and the benefits expected to produce were outlined today by Vance C of the Pickland Farm Bureau Mr Clevenger representative farmers in the project and gave enthusiastic reception to the success

"The cooperative is the first of its kind in Ohio and we believe it will help to give these farmers a better market and in markets in the future from Cleveland to Columbus

Several other counties are dotted with creameries and are doing a large business these centers

Its only logical that Ohio farmers will come closer to the center of some benefit from cooperation

Under present plans the farmers would ship cream to a headquarters in the field The headquarters would churn it into butter for transportation and distribution to the marketing centers

The cooperative will serve the area covered by the Central Dairy Market Included in the counties are Hardin Wyandot, Crawford Morrow Richland Ashland and Harrison

Ohio Farm Bureau officials helped in preliminary organization moves In the near future a convention of the Ohio Farm Bureau federation will be held and farmers urged farmers to cooperatives

### Old Tax Duplicate

A rare old document, the tax duplicate for the seventh school district of Marion township, dated April 4, 1835, was found recently by E. H. Huggins of 349 Delaware avenue in a tin box which had been stored away for many years.

His grandfather, Simon Huggins, who owned 160 acres of land in what is now Vernon Heights, was on the duplicate for $8.12 school tax for a year.

Other pioneers whose names appear and who have descendants now living are James Cunningham who was the grandfather of Mrs. George Frank and the Misses Louise and Grace Cunningham, John Barks whose grandson, Frank Barks, lives on the Delaware road, James Bowen, John and Peter Klinefelter and Adam Sorrick who was the father of Mr. Huggins' mother.

### Lost, One Hour

If someone will find a lost hour, one young Marion man about town will be eternally grateful. He was dated up for a show and was all slicked up in his best bib and tucker ready to escort the girl friend.

He glanced at his watch, took a longer look and it was 8:45 instead of 7:45. At 9 when the first act was over, the couple arrived at the theater.

And he's still saying he "lost" the hour.

### Last Solemn Rites

Children gathered around a South Prospect street rock garden pool the other twilight, were so busily engaged that one of the neighbors became interested and inquired the nature of the proceedings.

They showed a dead gold fish brought up from the bottom of the pool and announced that funeral services would be conducted as soon as proper arrangements were made.

The burial project was carried through for soon there wafted onto the night air the strains of the "funeral" hymn, "Silent Night," sung by the children as they grouped themselves around the goldfish's burial plot.

# Texas Takes Spotlight in Vegetable Shipments

Texas grabbed the spotlight in the news from Marion produce market this week with large shipments of new items rolling in from that state in time for the Christmas eating season.

The first carloads indicate that the Lone Star state probably will lead all other sections in the variety of produce sent over the country within the next few weeks, dealers said.

Heading the list of items from Texas are green beans, spinach, carrots, broccoli, beets and grapefruit. The produce is generally reasonable in price, dealers report.

Good quality pink and white grapefruit is on the stands now, both from Texas and from Florida. The latter state also is coming through nicely with tangerines. New California naval oranges are coming along in good quality and quantity now, although prices are up some on the crop. They're going at from 30 cents to 55 cents a dozen.

Hothouse tomatoes also are up in price this week, getting about 23 cents a pound. Dealers could give no definite reason for this jump.

Excellent quality head lettuce at a fair price has arrived from Arizona. Eight cents a head is the figure most dealers are getting. The lettuce cutters moved from California's Imperial Valley to Arizona recently.

Apples continued to arrive in good quantity this week, with Washington Jonathans, Grimes Golden and Delicious leading. Prices are up a bit this winter, but are fair considering the quality of the apples and the general price rise in all lines, dealers pointed out.

THERE YOU GO AGAIN! BETWEEN YOUR CONFOUNDED NAGGING AND MY SLEEPLESS NIGHTS, IT'S A WONDER I DON'T GO CRAZY!
BUT DICK! I ONLY ASKED YOU WHAT TIME YOU'D BE HOME TONIGHT...
OH, JOAN...I'M SO SORRY...BUT I COULDN'T HELP OVERHEARING!
I'M JUST AT MY WITS' END... SICK JUST LIES AWAKE AND TOSSES NIGHT AFTER NIGHT... AND THEN BE NERVOUS AND CROSS AS A BEAR EVERY DAY!
THAT'S A SHAME... BUT WHY DON'T YOU TRY GIVING HIM SOMETHING, JOAN?
SOMETHING? WHAT'S THAT, ETHEL?
WHY, YOU KNOW—THAT SWISS FOOD-DRINK! THEY SAY IT'S SIMPLY MARVELOUS THE WAY IT HELPS SO MANY POOR SLEEPERS GET TO SLEEP.
WELL, I'LL CERTAINLY GET SOME THIS AFTERNOON!
A CAN OF SOMETHING, PLEASE.

# TEACHER TALKS BEFORE CLUB

...e History Instructor ... Italian-Ethiopian Situation.

...istory teacher in the ...h school, spoke and ...sion of Italian-Ethi... at the weekly lunch... ...nnis club in Hotel ...

...olini's arguments to ...sion of Ethiopia, the ...kground of events ...e invasion and com... ments on the situation as it stands today were covered in Mr. Otte's talk.

He predicted the war will continue for four to six years unless some peace agreement is reached, asserting that the Italian forces are "penetrating slowly," and that several years will be required to complete the territorial expansion campaign of Mussolini.

Italy, he said, was drawn into the World war on the side of the Allies by promises that the Allies would give Italy some Ethiopian territory. Mussolini, he continued, has contended that the Allies have failed to live up to this agreement, and has advanced the argument also that he is doing nothing more than England had done in previous years in the way of obtaining foreign territory.

**Army Costs Heavy**

Another factor, the speaker said, is the huge army Mussolini has built up. Italian taxpayers are going to protest against support of that army unless it is used, he asserted. He contrasted Mussolini's encouragement of his people to raise larger families with his assertions that Italy is overcrowded and needs additional territory.

He told of the interests the various European countries had in the conflict, discussed the sanctions imposed by the League of Nations and commented on the possibility of the war developing into a world struggle.

Mussolini, he said, has declared he will fight the league sanctions. If a European conflict should grow out of the war, could the United States stay out? he asked.

The rainy season, to start in February will halt the Italian advances in another two months, and probably cause a recess in the war until October, he said.

**Answers Questions**

At the conclusion of his talk, he answered a number of questions raised by club members. A. W. Kettle asked about the oil resources of the country, and Mr. Otte said English geologists have reported definitely there are valuable oil resources in Ethiopia. John H. Clark commented on Ethiopia's contention that the League of Nations is failing in its duty to preserve the territorial integrity of the country, and Mr. Otte said the Ethiopians have made this their major argument in appeals to the league to halt Italy's invasion.

Dr. J. T. Gruber asked about the progress of civilization in Ethiopia. Mr. Otte said slavery exists to some degree, there are few schools and the level of civilization is not high. "However," he added, "Haile Selassie contends Ethiopia should be permitted to better its own living conditions rather than have Italy come in and force the improvements Mussolini has pictured for the country."

Supt. C. A. Hudson of the city schools suggested that perhaps ill was fortunate the United States had stayed out of the League of Nations in view of the criticisms the league has received from various countries and the difficult problems it has encountered. The speaker concurred in this opinion.

# STOCKS SHIFTY AFTER UPTURN

### Tension Over Silver and European Situation Dampens Bullish Ardor.

By The Associated Press

NEW YORK Dec 13 Weakness of several leading industrials today unsettled the stock market after the list had staged a quiet rally in the morning

Tension over silver and foreign affairs seemed to have lessened somewhat but bullish forces apparently were depressed by the failure of recent share leaders to resume the forward path Trading was dull during the greater part of the session

Sporting wheat at Chicago and other world centers was a neglig ible influence Cotton also exhibited strength Domestic bonds were steady although Italian obligations were again heavy Gold currencies sagged in foreign exchange dealings

Mining shares such as Cerro De Pasco American Smelting U S Smelting and Kennecott improved as did Sears Roebuck Montgomery Ward Western Union and several oils American Can and Continental Can dropped around 3 points each and American Telephone Western Union Union Pacific and Du Pont fell back around a point or more The tobaccos eased along with most of the utilities and the motors and steels were about even to a little lower

The rails did not respond to the official car loading figures for the last week which showed a more than seasonal increase Declaration of a $3 000 000 extra dividend by the Chicago River & Indiana railroad a wholly owned subsidiary of the New York Central did not bring any especial buoyancy to the latter stock

Silver futures recovered in Montreal but after another long delay the London opening price was fixed at the equivalent of 56d cents an ounce (based on sterling at $1 92½) off about 1 cent from yesterday s rate Imported silver in New York was subsequently reduced another cent to 60¾ cents an ounce the lowest since March 20

# METHODISTS RATIFY CHURCH UNION PLAN

## Officials of Three Branches Announce Setup Expected To Be Complete by 1940.

By The Associated Press

WASHINGTON, Dec. 13—Methodist officials yesterday announced the preliminary ratification of a 4,000-word "plan of union" which they hope will bring together three main branches of the church by 1940.

Culminating 70 years of negotiation, the plan calls for consolidation of the Methodist Episcopal church, Methodist Episcopal church south, and Methodist Protestant church under the new name, "The Methodist church."

It would bring more than 8,000,000 communicants, a Sunday school enrollment of approximately 6,000,000 and a Methodist "constituency" of some 20,000,000.

The plan, made public by Dr. Harry E. Woolever, secretary of the joint commission on Methodist union, embraces a judicial council similar to the supreme court to hear and decide appeals on the constitutionality of actions of the general and jurisdictional conferences.

## MARY JANE REED DIES IN CRESTLINE

Special to The Star

CRESTLINE, Dec. 13—Funeral services for Mrs. Mary Jane Reed, 81, who died Wednesday at Emergency hospital, were held this afternoon at 1 o'clock at the Bender and Stick funeral home. Burial was made in the Greenlawn cemetery.

## HOLD GYPSY FESTIVAL

BUCYRUS, Dec. 13—Several hundred persons attended the Gypsy festival held at First Methodist Episcopal church Thursday night. Mrs. F. M. Snyder was in charge of the concert musical play presented to patrons and various booths provided entertainment.

# LAVISH HAND USED IN DESIGNING TOYS

(Continued from Page One)

agined many of them and these dolls all boast mops of curls that tumble over pretty little faces. One blond doll comes in a wardrobe trunk with two dresses already to provide a day's entertainment for some nappy child.

The "little women" who are beginning to take an interest in needlework will find entrancing ways to spend many happy hours. One set of seven towels to be embroidered comes with a towel rack. There are patchwork blocks to be made into a dolls quilt and "Orphan Annie" embroidery sets.

And to house the new doll one of the stores is showing real-to-nature dollhouses made of wood. Quite roomy affairs they are in Colonial, early American and English cottage architecture, and then there's a pasteboard miniature of Colleen Moore's famous doll castle.

All the stores that offer toys also have shelves of books suitable for children, and they range from the ever popular "Black Beauty" to "The Adventures of Dick Tracy."

A real bit of mechanism is the hand loom, about 14 inches long on which a diligent little girl may weave a scarf for her doll, rugs for her dollhouse and covers for the doll's bed.

Electric ranges, new washing machines quite large enough to hold the dolls' entire washing, new refrigerators, new doll furniture and astonishingly attractive aluminum sets of service for the afternoon tea party and there are new modern tea tables in red and black or old style sawbuck table with benches. New Desk Set

A lovely addition to a little girl's room would be one of the new sets of desk, chair and sewing basket in ivory trimmed in blue, or a desk, chair, two tall sturdy bookshelves and a waste basket in the same delicate shades.

With interest in archery picking up to the extent of having bow and arrow hunts, some boy or girl will be made happy Christmas morning with one of the new sets of a large bow, three arrows and targets.

The child who daubs with paints or crayons will like the new sets offered in toylands. One of them, a "March of Progress" set offers the artist gold and silver paints in addition to the regular colors.

Games galore promise many an evening's entertainment. There's a Popeye the Sailor shipwreck game, an international derby race, and one box offers six games and puzzles.

Quick, Watson, there's business to be done. There are Sherlock Holmes disguise outfits which offer the enthusiastic novice a big plaid cap, whistle, fake nose, mustache, handcuffs, a big pipe, grease paint for various makeups and a mirror.

Christmas morning will be a noisy occasion in Marion if the stores sell all the drums in stock. Big drums, little drums, medium-sized drums and even trap drums await the eager-eyed youngster who goes in for noise in a big way. The child who likes pets should have one of the life-like dogs or cats, or a good old Teddy bear.

Automobiles are more streamlined than ever and one of them is a fire chief's car with a big bell on the radiator waiting to be clanged by some ardent member of the neighborhood fire department.

Motion picture sets become more sleek each year. Scooters don't look the same any more, some of them being disguised as firetrucks and wrecking cars, and the new walkers for the tiny tots make the first steps all the fun of driving a pony, the rider sitting in a saddle.

### Mechanical Toys

Mechanical toys include drive-away trucks that haul four other cars and new powerful steam shovels with bigger dippers. Tool chests are more inviting than ever, and skates are brighter and shinier and a fascinating gift.

For the person buying lovely, yet practical, gifts for children, there are new "Jane Withers" dresses in holiday sheers, snow suits with ski trousers in red, blue or green with either helmets or toques. One great advantage in the coats and leggings for boys 2 to 8 years, is that the newest ones are water-proofed—a modern invention which mothers will appreciate beyond words. For the tots from 2 to 4 years there are adorable fluffy wool coats, some made with epaulets, and all with quaint little bonnets. They come in shades of blue and green and one particular delight is the delicate shade of orange sherbet.

Pink and blue bunny lounging slippers of softest wool come in sizes 4 to 10, and the fluffiest bits of all are the palest pink wool booties, caps and sweaters with gleaming threads of silk interwoven. Bathrobes and shoes come in baby sizes, too, in pink or blue with white, or white with pink or blue trimming.

Any baby would gurgle at the huge new Kewpie dolls of celluloid with a musical rattle to entrance tiny ears.

## LEGION TO MEET AT UPPER SANDUSKY

Special to The Star

UPPER SANDUSKY, Dec. 13—The American Legion is making plans for a special meeting next Monday night, Dec. 16 at the legion hall and the Japanese Gardens. The event is being planned to honor State Department Commander Milton D. Campbell and Department Adjutant J. J. Saslawsky. Legionnaires from Marion, Bucyrus, Galion, Crestline, New Washington, Tiffin, Fostoria, Forest, Kenton, as well as all posts in this county have been invited to attend.

## FORMER RESIDENT DIES

MT. GILEAD, Dec. 13—Herbert Purinton, 83, former Peru township resident, died Friday night at the home of his son, Claude, at Vallejo, Calif. Surviving are two brothers, Frank of Vallejo, and Benjamin of near Ashley.

## WILSON RITES SATURDAY

KENTON, Dec. 13—Funeral services for Hugh C. Wilson, 72, who took his life in his hotel room here will be held at the home of Joseph McClain at 2 p. m. Saturday, Rev. H. J. Schumacher will be in charge and burial will be in St. Mary's cemetery.

## MAJ. BOWES, YOU'LL EAT THOSE WORDS

FREMONT, O., Dec. 13—Two little words of Maj. Edward Bowes in his radio broadcast Sunday night so aroused the neighboring Sandusky county village of Clyde that scores of letters, together with cakes of Clyde-canned sauerkraut and cherries for which the community is famous, have been sent to the NBC studios in Radio City, New York.

Maj. Bowes asked "where's that?" when a woman amateur performer in the broadcast informed him that she lived in Clyde. His question so aroused civic and industrial interests in the village that action began immediately.

Clyde folk are now eager to wager that the next time Maj. Bowes is confronted with a performer from that village, he will know all the answers.

## WORLD PEACE SOURCE SEEN IN YOUNG FOLKS

**Views on International Situation Discussed by Delaware Woman at P. T. A. Meet**

Upon the youth of the country (especially university and college students) falls the task of bringing about world peace, Mrs. Bessie Beal of Delaware, associate alumni secretary of Ohio Wesleyan university, told members of the City Council Parent Teacher association last night at Harding High school building.

Her topic was "Youth Problems in the Orient," but she brought the American youth into her discussion. Universal peace will result only after studying and understanding the neighboring peoples and their problems, according to Mrs. Beal.

In connection with the Japanese-Chinese situation she told of a secret Sino-Japanese society of young people being organized in the two countries to bind together in vows of brotherhood young men and young women anxious for peace. She spoke highly of Mahatma Gandhi in connection with his work of educating the untouchables, or persons of the lowest caste in India.

The council voted $116 to the City hospital clinic and pledged each individual association to pay ing a minimum of not less than $8 to the clinic.

Mrs. Walter Sheats, president of the council, presided.

## HEALTH DEPARTMENT RETURNS TO OFFICES

**Courthouse Headquarters Reopened Following Completion of WPA Project**

County health department headquarters was reopened in the courthouse today following completion yesterday of a new heater and fuel room on the north side of the building. The work was done as a WPA project.

Dr. N. Sifritt, county health commissioner, and his staff moved furnishings and records this morning from their temporary offices in the Marion building where they have been located since the project was started last summer.

The health department offices have been remodeled and redecorated and a new floor installed in the three offices that make up the headquarters.

Work at the courthouse begun under the FERA works division and completed under the WPA included construction of the fuel and heater room, concrete construction under the esplanade at the north side of the building, painting and remodeling and widening of Court street. The total cost was approximately $4,900, of which $1,590 was furnished by the county.

Counts commissioner are working on a plan to install a new boiler, they said today, and if this is done the old boiler will be dismantled. The coal smoke stack located at the northeast corner has been repainted.

The officer shoved his goggles up on his brow and stared.

Well, for the love of Mike! Miss Wes —!"

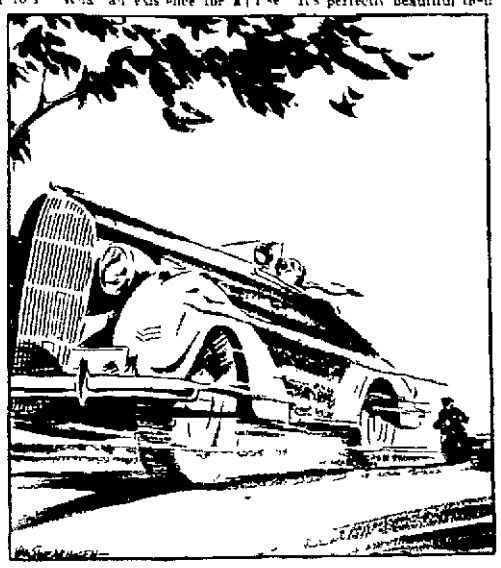
It is," said Allaire. "And one of these days Miss West is going to get a car that will make you think you're pedaling a trieycle. See if I can't."

You've got away from me plenty," Murphy said. I still can't figure out how I lost you in Middleburg that time last spring."

I can't either," he smiled. I put it down to masculine gallantry. How are you, Murphy?"

O. K. But listen, you hadn't ought to speed like this, Miss West. You'll crack up some day, so help me."

I'm trying to get home by sunrise. It's perfectly beautiful then.



A police motorcycle picked her up.

...fish. Charley was convinced it was the stupidest evidence he'd ever seen.

* * *

Allaire operated independently of the separate establishments maintained by her parents. Her course lay between her father's New York town house, her mother's family home in Washington, and her father's country place in Virginia, with little side excursions and disappearance of her own thrown in for good measure.

And she was driving like hell again. She whipped down to Washington, spent a couple of days there, and then took to the open road again.

It was 30 miles to sunrise when her long blue roadster raced through a quiet Virginia countryside in the hush of early dawn. Already the first faint red glow was touching the hills, and her father's country home was 30 miles up the valley.

A police motorcycle picked up her trail and chased her down a long stretch of open pavement in a duel of roaring motors.

Then the policeman won. He drew up abreast and careened about a curve with the car in a hairbreadth partnership of burning tires and screaming brakes.

Get over," he yelled frantically.

The girl flirted a hand and brought the car to a stop. Her white polo coat was streaked with dust, and her bright hair bound by a purple ribband was aflutter at her temples from the windlash of her terrific speed.

Hello, Murphy," she greeted lazily. Well, this is a pleasure. It's been a long time since you arrested me last.

You always go too damn fast, said Murphy.

That's why I like to drive at night. No traffic.

This hi cigar is a gesture of truce between two friendly enemies.

* * *

This aint right," insisted Murphy. It's early morning. And there's milk wagons and such. Say, where you been? This is the first time you've come through here in months, aint it?

I've been in South America," said Allaire.

Yeah," said Murphy.

Yeah," said Allaire, nodding.

What kind of a place is it?"

Dangerous," said the girl. Murphy, I nearly fell in love. Isn't that awful?

Oh, yeah," said Murphy, rising belligerently to the defense of the underdog. Listen, one of these days some guy is goin' to come along who'll tone down your speed plenty, lady.

Allaire smiled and flicked her cigaret out into the road.

I'll be on the lookout for a tall, dark stranger on a motorcycle," she promised.

That reminded Murphy. He fumbled awkwardly for his book.

I ought to give you a ticket, Miss West. But, listen, take it kind of easy the rest of the way, and I'll let you off. Shucks, it's still pretty early.

Her dark eyes rested on him, amused.

Better give me the black spot, Murphy. Today is my birthday, and I'd like to feel I'm getting some place fast.

Birthday?" said Murphy. He put his book away with obvious relief. Aw, to hell with it. Go ahead. I'll slap it on you next time.

She waved thanks and the next moment had swept off in a purring crescendo of speed. Thirty miles to sunrise and minutes had flown. But she'd make it!

She did. The sun was just beginning to strike the roof of Wes Landis' as she stopped on the crest of the hill that overlooked her father's estate.

The beautiful old red brick mansion with its white columns and broad portico was graced by lovely lawns and set in a park of great trees with walks bordered by double rows of boxwood extending in all directions.

In that breathless hush before the unsheathened light of day before motors began to roar down the drive and cocktail shakers rattle through the house the place was old Virginia at its loveliest and most courtly. A heritage of tradition hovered around.

Allaire had a strange love for old battlefields, historic houses, and early sun that made her feel like an interloper. A party to vandalism as she sat in her car and looked down on the changes wrought by modern wealth.

...ferred tomorrow for Allaire. A beautiful morning is what

# More Toys Needed To Put Christmas Party Over

Are there any used toys in Marion that might do for boys and girls in the city for whom Wednesday, Dec. 25 is going to be just another day unless they are remembered at the third annual children's community Christmas party, Christmas morning?

At the temporary "toy shop" where members of the Phalanx club are working day and night repairing and painting the used toys contributed by the boys and girls at the two toy benefit shows and individuals interested in the Christmas party, the situation is getting serious, they say.

There aren't going to be enough toys to fill all the packages needed for the party," was the verdict of the toy menders late yesterday afternoon. Especially for boys four, six and eight years of age," they say. And they still can use toys for boys and girls.

There are about 90 toys wrapped and checked for the parts but that is less than half that will be needed by Christmas morning, to say nothing of the short time remaining to repair them. The workmen are fairly well caught up with the repairing and repainting of what is in stock and will be able to take care of any contributions in the way of toys that may need reconditioning before the party. They also have on hand at the toy shop about 20 dolls to be dressed, a check shows.

The show windows in which are displayed some of the reconditioned toys are as interesting as the toy department of the downtown district and if you happen to be in the spirit of the season why not put the toy shop on your shopping list and drop in with a gift for the city's less fortunate kiddies. The address is 129 East Center street, in the Cummin Memorial building.

# Married Comrades

BY ADELE GARRISON

**Mary Tells Madge She Fears Noel Won't Be Able to Return to Father on Time.**

I'D HAD not heard the altercation between Mary and Roderick and the subsequent apologies. I should have known that something had happened by a certain wariness in the manner of Mary and the two small boys. It is an attitude I occasionally meet and one which I always ignore.

I go on the principle that I have enough disciplinary problems on my hands in the things which come under my attention without trying to ferret out reasons for squabbles which take place beyond my ken.

Hello, Mary," was the first to answer my greeting. We're all here and a sleepy lot we are, too. The boys' eyes are shutting every other second.

Aw, we're not really sleepy," Junior protested valiantly. It's just the light that make our eyes go that way.

Then that's all the more reason why you should get away from the lights. I told them with less sympathy in my voice than in my heart, for I knew how they were savoring every drop of this new experience.

**Boys Retire.**

Besides, I went on, there's a rigid rule in the mountains. Very early to bed and very early to rise. Then you don't miss anything for most of the good times in the mountain country come between daylight and dark. So put up your things now and go to bed.

Where'll we go?" Junior asked practically. Over there where Noel is sick?"

No, in the other bedroom here I have your pajamas and tooth brushes and combs in the kitchen. Aunt Katherine brought them out to me a little while ago. Go and get them now, say goodnight to us and get to bed right away."

They knew better than to dispute the edict, but their gusty sighs came from their toes and their faces were lugubrious as they said goodnight. But 10 minutes after their leaving the room when I tiptoed in to their rooms they were both fast asleep.

**Worried About Noel.**

Dead to the world, aren't they?" Mary asked perfunctorily when I came back into the living room. But I do not think she even heard my answer as she sat staring into the fire in the big stone fireplace. I knew that she was lost in some problem of her own and waited patiently until she should come out of her reverie and tell me the things which she had indicated she wished me to know.

When she finally spoke, however, it was of the question nearest her heart.

Auntie Madge," she said, do you think that doctor really believes Noel is all right?

I am sure he does, dear," I said, speaking truthfully. I have told you before he is sure there is no concussion, but he is watching him very carefully to be sure that pneumonia does not follow that terrible chill he had after that soaking in the lake.

If he doesn't get pneumonia — she shuddered at the dread word— how long do you think it will be before Noel can go back? Not that I want him to go back—goodness knows I'd love to stay up in this heavenly place with him the rest of our natural lives. But if Noel has the right dope and I think he has, his father is going to be in the daffy house or in his grave if these plans of his don't go through. So I knew that the minute Noel realizes what's up, he's going to be simply crazy if he can't get back on time.

How did he manage to get away to come up here to see you?" I asked.

**Father Consented.**

Just got stubborn for the first time in his life and told his father he wouldn't stir a step out of the country unless he could say goodby to me first. So finally dear old Phil consented to Noel's flying up here on condition that he fly right back again. And if the old boy should find out about this accident— oh, oh! Yet Noel ought not to go right back.

Perhaps we can give the impression that an accident happened to you," I said.

And wouldn't that make a hit with my darling papa-in-law. Noel sticking around here because of an accident to me when his daddy needs him. And I guess it really is awfully necessary that Noel be back there ready to start on this darned cruise.

We can tell you nothing tonight," I said practically. Everything depends upon Noel's condition in the morning. If he's all right, I should imagine there wouldn't be more than a day's delay in his going back. Would that matter?"

## EDITH MAXWELL DENIED NEW TRIAL

By The Associated Press

WISE, Va., Dec. 13 — Judge H. A. Skeen yesterday denied a new trial for Edith Maxwell, 31-year-old school teacher sentenced to 20 years for the murder of her father.

Miss Maxwell broke into tears when Judge Skeen announced his oral decision after more than three hours of argument by attorneys.

There is evidence upon which this verdict can stand," Judge Skeen said. Therefore I overrule the motion of the defense for a new trial.

# STEWARDESS WINS 'FLYING DIANA' TITLE

## Jersey Girl on Chicago to New York Route Also Likes To Hunt Rabbits.

By The Associated Press

NEW YORK, Dec. 13—The first beauty award of the air—a pair of silver wings and the title "Flying Diana"—was won yesterday by a girl who is a crack marksman on the side.

The wings were pinned on the green gabardine lapel of Marguerite Moore, 23, who tops off her round trips as an airplane stewardess by hunting rabbits with her father and brothers in Bridgeton, N. J.

"The fact that I can really shoot didn't enter in," said the newly-elected Diana.

She was chosen by Nils T. Granlund, night club producer, the most perfectly-proportioned stewardess riding the air lanes for a passenger line.

In the contest were 150 stewardesses, all under 120 pounds and 5 feet 4 inches in height.

Marguerite, who is small and dark-haired, flies from New York to Chicago and back three times a week. She is a graduate registered nurse from Jefferson hospital, Philadelphia.

She has learned to prepare a four-course lunch in an 8x12 inch space, fill babies' formulae on a plane, fight passengers' cigarets and converse on any subject.

"I've often walked from here to Chicago," she said. "The job keeps you moving about."

# WARD EXPLAINS TAX ON INCOME

## State Proposal Differs From Others Mainly in Matter of Rate Structure

EDITOR'S NOTE: Chairman J. L. Ward of the house of representatives committee has proposed a graduated income tax to bolster Ohio's revenue setup. It has been suggested it might be substituted for the state three per cent sales tax levy. Rep. Ward is the first of a series of articles written exclusively for The Associated Press explains the provisions of the income tax measure.)

By P. L. WARD
*Written for Associated Press*

COLUMBUS O. Dec. 13 — The income tax proposal before the legislature at this time has been evolved after several years consideration.

It differs materially from earlier proposals and from the income tax of any state in which the tax is now in effect. It is frankly an experiment. The most important difference is in the rate structure. Earlier proposals aimed rates at a level that conformed in general with that of other states which are now using income taxation.

The suggestion for this change came from Sen. Lowery. In fact he drafted this proposal in the first instance. It superimposes upon the federal rates the state rates ranging from one per cent to seven per cent and provides that the federal tax shall be subtracted from the sum thus computed to arrive at the state tax.

**All Will Pay**

The reason for this is as follows. There are approximately 175,000 employes of the state and its subdivisions that are not subject to the federal income tax. The purpose of treating income from all sources alike is to tax a large income group a probably greater than in the case of those in private employ. The purpose then of this state proposal is to make the income tax paid by all citizens of Ohio as far as it applies to a given income the same whether earned by the head of a substantial business or by a business man. Under the law the state would receive a larger amount paid under this measure in the case of all state and local employes.

*Many persons have been interviewed in the preparation of this proposal and the unanimous opinion is that if we are to tax at all it should be on the ability to pay, and wherever a higher ability to pay the same tax is imposed upon equivalent [illegible]*

**Exemptions Passed on Tax**

The exemptions from the tax in the present proposal are in dollars of tax rather than in dollars of income. The Wisconsin law has this feature. It materially increases the productivity of the measure by assuring that the exemption will be taken from the lower brackets rather than from the highest.

The present proposal contains another important departure from the ordinary state income tax law. In the earlier Ohio drafts of an income tax bill it was proposed to make a differentiation between earned and unearned income. This was a difficult thing to do without setting up two rate structures and bringing about serious complaint in the case of most individuals who had both earned and unearned income. In the present measure this is accomplished by imposing a tax up on intangibles at the rate of two mills upon market value. That serves to increase the tax upon unearned income and a sufficient exemption is made so that those with very limited incomes of that sort are not penalized.

**Other Properties Taxed**

There is another sound reason for this feature of the bill. Other taxable properties taxed upon value are subject to the income tax when they produce income and in normal times they do produce income. The fact that office buildings, apartment houses and farms are now producing real income does not annul the argument because they must again be productive if we are ever to get out of this depression.

The comments upon the proposed measure indicate that it is cumbersome and complicated. The bill is necessarily voluminous. It largely follows the federal law as to administrative features. It is not simple to make clear and applicable to all walks of life and applicable to all types of business just what should be considered as real income and what is legitimately an expense. Some income of residents of Ohio may be taxed in other states and this should be provided for. The complications growing out of trusts and fiduciaries of every sort must be dealt with. However aside from the volume of these sorts of administrative features there are no complications in the computing of the tax except such as are inherent in the bracket system of the federal tax.

**Lubeted Mild and Severe**

There are those who object to this particular income tax proposal. One group claims that it is too mild a tax and preempts the field preventing the enactment of a real income tax law. The other group thinks this is too severe the rates are too high and that it bears too heavily upon the little fellow. These appear to be excuses rather than reasons for their opposition. Higher rates would not make it more productive unless the higher rates applied to those brackets in which the number of taxpayers is considerable. The one half dozen or so in the higher brackets will not stand for confiscation of their incomes. Lowering the exemptions would greatly increase the return greatly increase the number of taxpayers and greatly increase the cost of administration. Perhaps the increased cost would offset any increased return.

So long as Ohio has a sales tax lowering the exemption would compel all those who now have to spend their entire income in order to live to pay two income taxes for it is certainly true that in these income groups a sales tax is an income tax collected in pennies upon their total income.

**CHURCHES TO JOIN**

Congregations of the Grand Prairie and Wyandot Baptist churches will join for a worship service and baptismal rites Sunday night at 7:30 at the Morral Baptist church. Rev. Charles Hirt pastor will officiate.

## NEARLY ALL BANK ROBBERS CONVICTED

*By The Associated Press*

WASHINGTON Dec. 13—J. Edgar Hoover reported yesterday that G-men have won convictions in 96.55 per cent of the bank robberies they have investigated.

The director of the bureau of investigation said bank robberies have been more than cut in half in the past year comparing 23 robberies during the last six months with 75 committed during the same months last year.

The G-men were given authority to investigate the robbery of national banks and federal reserve member banks under a law passed on May 18 1934. This protection was extended last August to all federally insured banks which number more than 14 000.

# ENTIRE FAMILY PRAISI NEW MEDICINE 'VEND

**Mr. Stone got so much relief by taking Vendol that he got some for the balance of his family, and they all have benefited by taking it.**

MRS. McKINLEY

My husband had been taking Vendol with such good results that he insisted that both my son and I also take it and we do not begrudge the money spent because all three of us are feeling worlds better," said Mrs. McKinley A. Stone of 2314 Sixteenth Street N. E. Canton.

"I was feeling weak and run down and my digestion was so poor that nothing seemed to agree with me. I often felt a shortness of breath gas in my stomach and acid risings in my throat. My muscles and joints were so sore and stiff and my limbs ached all the time.

"Vendol soon put a stop to all this and now I am feeling like a different person enjoy what I eat with never a sign of indigestion to follow. I sleep well and have gained so much strength that my housework no longer troubles me. My son has such a good that he looks better than seen him in a long time has helped the Stone much that we are glad good word for it wherever the chance.

Vendol is sold and re by Henney & Cooper and leading druggists—Adv.

# Major Leaguers End Busy Three-Day Trading Sessi

## 5 OF 16 CLUBS GET NEW MEN: BIGGEST TURNOVER IN YEARS

### Quinn, Former Marion Player Credited With Best Bargain of Meeting

By The Associated Press

CHICAGO Dec 13 — The boys with the bulging bankrolls bolstered up their confidence today, and the baseball major league fans are confused as ever.

After a quarter of a century of dealing cards in five deals and nine of the 16 clubs owners and boss with new players, two entire pitching staffs, two major league managers and the greatest turnover in years.

Here's what happened in the player mart:

AMERICAN LEAGUE Philadelphia obtained Jimmy Foxx and Johnny Marcum from Philadelphia for Gordon Rhodes, George Caster, a rookie and $125,000 in cash.

Detroit bought Al Simmons from Chicago for $75,000 cash.

New York exchanged Monte Pearson and Steve Sundra, a rookie from Cleveland for Johnny Allen. All are righthanded pitchers.

NATIONAL LEAGUE New York traded LePoy Parmelee and Phil Weintraub to St. Louis for Infielder Burgess Whitehead.

Boston obtained catcher Al Lopez, infielder Tony Cuccinello and pitchers Bob Reis and Ray Benge from Brooklyn for Dutch Brandt and Randy Moore.

In addition to player deals the National league settled the crippled financial situation of the Boston club by turning it over to Bob Quinn who started his career in the game in Marion O 40 years ago.

Quinn a shrewd old grandpappy who it rated as one of the slickest traders in baseball gave the major league player mart a final thrill when he traded two hired hands to Brooklyn for the price of four.

The deal surprised baseball men who were unanimous that Quinn had made the finest straight deal of the lively three-day meeting.

Up at dawn the 64-year old Boston president hunted up the Brooklyn delegation and closed the big deal. He then out talked Branch Rickey, head of the St. Louis Cardinal farm system but rebelled when Rickey demanded Pitcher Fred Frankhouse in exchange for Infielder Charlie Gelbert. Unable to get more the conference—long and stormy—ended in no deal.

I'm just starting, Quinn said. Yes I figure the Braves got a right smart bargain.

As the meeting closed yesterday, the all star game of 1936 was awarded to the Boston Braves to be played sometime in July. Both leagues agreed not to permit synthetic doubleheaders until after June 15 and also approved a change in schedules that would bring the eastern and western clubs together in three three-game and one two-game series instead of the two four-game and single three-game series heretofore. To promote the American Legion Junior baseball tournament $70,000 was appropriated.

## GALION MAN ONE OF "BIG LITTLE" STARS

### Don Burnison Guard at Ohio U, Picked by Associated Press

Ohio university's watch charm guard 145-pound Don Burnison of Galion was given an honorable mention today in The Associated Press choices for the Little All America grid team.

Two of his team mates at Ohio university also were picked in the selections. Arthur Lewis 200-pound senior tackle was the only Ohio player picked on the first team line-up. Hallock was given an honorable mention for his work at an end position. Cole of Miami university was given similar honors at the same position.

In choosing the team The Associated Press called the roll of the big little fellows the small college stars who blocked, tackled and darted through broken fields without headgear or headlines but with no less enthusiasm and in many instances with scarcely less skill than the boys in the big time limelight.

Complete selections for the first team follow: Ends Allen, Chattanooga and Ramsey of Texas Tech; tackles Lewis, Ohio university and Garland, Catawba; N. C. guards Baer, Juan de Wesley and Butler, San Diego State; center Sponaugle; Franklin and Marshall; halfbacks Orwiec of Willamette and Kobrosky of Trinity, Conn.; quarterback Ho of Loyola (New Orleans); fullback Farley, Hampden, (Kans.) ## Expect 20,000 To See Joe Louis, Paulino Uzcudun Fight Tonight

JOE LOUIS

PAULINO UZCUDUN

NEW YORK Dec 13—Joe Louis the dusky Detroiter who has been fighting professionally little more than a year takes boxing back to the good old days of 1920 tonight when he encounters the shop worn but durable Paulino Uzcudun in a 15-round bout at Madison Square garden.

For the first time since the ill omened Primo Carnera Ernie Schaaf bout three years ago a complete sellout is anticipated at the garden. Receipts are expected to surpass $100,000 with a 20,000 crowd.

All this comes from what is expected to be a more or less cut and dried affair with a Louis victory almost certain. The only question to the experts seems to be whether Joe will knock Paulino out or even off his feet.

Uzcudun says Louis won't do it. He seems to have a good basis for that prediction in his record of 63 fights without a knockdown. Going even further he predicts he will win.

The heavier champion Jimmy Braddock will be on hand to see the man he may have to fight next fall for the title and five former champions will be present. Among them is Max Schmeling, who is slated to meet Louis next June providing the Bomber gets past Paulino and following fights against Izzy Ganzenaga and Charley Retzlaff.

The main bout scheduled to start about 10 p. m. in eastern standard time will not be broadcast.

## 5 From Marion District Share Cage Spotlight At Heidelberg

Five cage stars from the Marion district share the basketball spotlight at Heidelberg College. Robert Seele of Bucyrus senior letterman and member of the All Ohio conference football team seems a sure bet to fill his regular position on the Student Prince varsity squad.

Hale Hufford of Sycamore, Marion Smith of Republic, Bud Otte of Marysville and Gilbert Shell house of Sycamore are the three other men who will participate in cage activity at Heidelberg this season. Hufford is a letterman and has returned for duty on the varsity team.

Bud Otte although not a letterman has seen considerable experience and is making a strong bid for a first string post. Shell house is creating an enviable record on the Heidelberg freshman squad, towering well over the six foot mark and a dead shot under the basket he is expected to develop into a varsity center during his college career.

The Student Prince varsity team is in the midst of a busy practice schedule in preparation for the opening of the season Dec. 18 when it entertains the Denison college team. Other games on the Heidelberg schedule are:

OMAHA MAY GO ABROAD

NEW YORK Dec 13—William Woodward's Omaha king of the 1935 three year olds will invade the English turf next year if he has fully recovered from the mysterious ailment that forced his retirement last August. The stout running son of Gallant Fox, like his famous sire won the Kentucky Derby, Preakness, Belmont Stakes and the Arlington classic.

## HARDING, ST. MARY READY FOR SECOND GAMES OF SEASON

### Presidents Meet Kenton Tonight, Kelly's Squad To Play Springfield Saturday

After initial victories in their opening games of the season Harding High Presidents and the St. Mary Parochial teams will swing into their second games this week-end.

Friday night the Presidents will play the first home game of the season at the Shovel gymnasium with Kenton High. The Harding squad will journey to Bexley Saturday night. Junior varsity teams are scheduled to participate in preliminary games with both schools.

The St. Mary Parochial team does not play tonight but journeys to Springfield Saturday night to meet the strong Central High Parochial aggregation.

The Presidents varsity team will be intact this week with the return of Bill Tierney, star forward who was unable to play in the Upper Sandusky conflict because of an injury to his leg. Other players who probably will receive Coach Bohyer's starting call are Frazier at forward, Ruby center, Evans and Faught at guard.

Harding's opponent, Kenton High scored a decisive win over Ada last week registering a 40 to 24 victory. No definite starting line up has been received from the Kenton camp but a study of last week's game reveals that players who may see action during the contest with Harding are Renfrew and Phlen forwards, Hatcher center, Krei and Hayes guards.

Coach Pob Kelly's Irish team will find stiff opposition when it journeys to meet the veteran Springfield team Saturday night. Basing conclusions on previous records the Clark county team will start an aggregation which is considered exceptional for its class. Added to the worries of Coach Kelly is the illness of his regular varsity, center Eugene Maxwell.

With no other prospective center to replace Maxwell the coach probably will rely on the services of a guard. Feldner to handle the pivot position. Other starting posts will probably see the same men in action that started against Edison High in the season's opener last week. Reid and Schuler at forward and Robbins and Lusch at guard.

## ONE N. C. O. GRIDDER ON ALL-OHIO TEAM

### Buckeye High School Lineup Includes Gaylord Bucher of Mansfield

One gridiron star of the North Central Ohio conference teams won a position on the All Ohio high school football squad selected annually by the Ohio High Schools Coaches association of which Jimmy Aiken of Canton McKinley is president.

The enviable distinction went to Gaylord Bucher 155 pound iron man a member of the championship Mansfield High Tygers coached by Russell Murphy.

No team in the state placed more than one man on the mythical eleven. Other selections were: Ends Whitten, Akron South; Morningstar, Massillon tackles Conrad, Ozzi, Cleveland Collinwood; Mann, Toledo Central; guard White, Portsmouth; center Gil Campbell, Memorial; quarter Krueger, Sandusky halfs H. Hampton Steuben ville Ballos, Canton full Stapleton, Hamilton.

## BOWL SOLD OUT

### 90,000 Want Seats in Stadium That Holds 81,600

By The Associated Press

PASADENA, Calif. Dec. 13—The flood of ticket applications for the Stanford Southern Methodist Rose Bowl tournament game poured into the office of Al Masters today—and out again.

Requests for more than 200,000 seats have been received for a stadium that holds only 81,600 persons.

Over worked postmen bring in a fresh batch daily, despite the official announcement last Monday that New Year's day game had been sold out within a week after Southern Methodist was selected as Stanford's opponent. A few hours later the rejections were carried away.

## Y TEAMS PLAN THIRD ROUND OF GAMES

## Discovery Rated Champion Race Horse of 1935

By The Associated Press

NEW YORK Dec. 13—Alfred Gwynne Vanderbilt's Discovery by almost any standard of rating was the champion race horse of 1935 and perhaps the fastest thoroughbred that has raced in America in 10 years.

Carrying 133 pounds Discovery broke the world record for a mile and an eighth racing it in 1:48 1-5. Last year he broke the world record for a mile and three sixteenths in 1:56.

Discovery's most brilliant performance however was winning the 1:35 mile and a quarter Arlington Handicap in 2:01 1-5 under 135 pounds.

Equipoise, Twenty Grand or Seabiscuit never equaled that time no matter what weight they carried.

Discovery twice was called on to bag 130 pounds and twice was assigned imposts of 136 pounds.

Discovery won only one race under these extreme weights but when he was defeated he was conceding from 19 to 23 pounds to his conquisher. The great Man O War never carried more than 130 pounds but he did not race after his three year old season. The last consistent winner under extreme imposts was exterminator which flourished at the same time as Man O War.

Discovery's form chart of this year's great victories by wide margins. He defeated Azucar by 3 length, Cavalcade by 15 lengths, Golden Rock by 10 lengths and King Saxon by eight lengths. Not since Man O War won a race by 100 lengths have such amazing margins been recorded by a handicap champion.

Discovery won 11 victories in 19 starts during the year. He won $102,54 in stakes earning him a three year total of $160,49[illegible].

# NINE GIVEN FINES IN TRAFFIC COURT

### Penalties Assessed Against Those Who Neglect To Appear.

Nine persons were assessed fines in traffic court this morning by Municipal Judge W. P. Martin when they did not appear in court.

"Names of those fined," Judge Martin said, "will be turned over to the police department for collection of the fines."

Approximately 50 tags were issued this week, the majority for parking in restricted areas. Of that number, 25 who were visitors in the city were excused. Sixteen persons who appeared were dismissed without fine.

# AUTO IS DITCHED IN SNOW STORM

T. H. Konkle of 213½ North Main street escaped injury when his car ran into a ditch on route 95, two miles west of Agosta, last night about 11:30 o'clock. Mr. Konkle was blinded by a heavy snow storm and could not see the highway. His car was undamaged.

# IRISH WON, NOT MUSTANGS, IN 1930

### Football Fan Calls Attention To Error In Sports Story

Marion sports fans today called attention to two errors in an Associated Press sports dispatch sent out from Dallas, Tex., and published on the sports page in yesterday's issue of The Star.

The dispatch erroneously reported that the Southern Methodist university Mustangs defeated Notre Dame in 1930 by a score of 20 to 14. The score figures were correct, but the game was won by Notre Dame, records show.

It also was stated in the article that the S. M. U.-Notre Dame game dedicated the stadium at South Bend. It was the first game played in the new stadium, but formal dedication was made a week later when Notre Dame played Navy at South Bend.

The article was the last of a series of three reviewing the football history of Southern Methodist university, which will meet Stanford in the Rose Bowl game on New Year's day.

### Lantz Rolls Three-Game Score of 627 To Top City League Members.

Lantz of the Richman Clothiers team rolled high score when the City League bowled on the Recreation alleys last night.

Lantz led with a three-game score of 627, closely followed by Marshall of the Casco team, who hit an even 600.

Other men who hit the double century mark in single games were Luellen with 201 and Drumm with 209. Match games scheduled on the local alleys for tonight feature competition between the Marion Coca-Cola team and a representative Upper Sandusky squad.

In games rolled Wednesday night the Standard Oil No. 1 team three-game high of 2,227. The Ohio led the Recreation league with a Associated Telephone team held single game honors with an 868 score.

# HORSESHOE LEAGUE GETS NEW QUARTERS

### Courts To Be Opened in Clevenger Building; Meeting Called Saturday.

The Marion Horseshoe league has obtained new indoor quarters for winter contests and has called a meeting Saturday of all persons interested in the game in preparation for a series of winter contests among local players and inter-city competition with Bucyrus, Galion and Shelby.

The meeting will be held at 1 p. m. Saturday on the second floor of the Clevenger building at 198 North Prospect street. It has been called by R. A. Titus, president of the league.

Members said today they hoped to equip the quarters after tomorrow's meeting by installing three courts, a stove and lights. Games are expected to start soon.

Lack of quarters last winter prevented the league from carrying on a full program of activities, but play was resumed in the spring. Prior to last winter, the league had quarters in the Y. M. C. A. building.

A schedule of games between a picked Marion team and teams representing Galion, Bucyrus and Shelby will be announced soon and regular inter-city matches will be held regularly, it was announced.

The Marion league, which at one time had more than 60 members, has asked all of its present and former members and all prospective members to attend the Saturday meeting.

# BETHLEHEM GRANGE AWARD PRESENTED

### Receives Championship Symbol from State Representative.

Presentation of an altar cloth, awarded Bethlehem grange when it was named a champion grange for the fourth successive year at the state convention Wednesday, was a feature of a meeting of the grange last night. The presentation was made by C. B. Stowe, lecturer, representing the state grange, and the award was received by Oscar Kaelber, master. Mr. Stowe also announced the grange had been awarded a red ribbon certificate for making a net gain of 25 members during the year.

Home security was the program theme. Floyd S. Barrett of Grand Prairie grange discussed phases of life insurance as a means of home protection and Ralph Carhart, Marion attorney, talked on "Wills." In compliance with the national Red Cross program a forum was conducted on farm accidents and how they can be avoided. Miss Florence Allmendinger summarized the points brought out in the discussion by telling of precautions which might have been taken to avoid the accidents.

### RADIO SPEAKER HEARD

BUCYRUS, Dec. 13—Rev. H. H. Savage of Pontiac, Mich., radio speaker over Detroit-Pontiac station, was heard in an address at the high school auditorium Thursday night under the auspices of the Baptist Young People's Union of First Baptist church.

with Tony Papalino and entangled Referee Tom Temple in the mess.

The Watter-Mexican Pete bout should give fans a mixture of both scientific and fast wrestling. Teddy Watters, who calls Gallup, N. M., his home, battled through a furious 26-minute preliminary last week with the tough Wild Red Berry of Pittsburg, Kan.

Mexican Pete performs here for the first time since Nov. 26 when he scored two successive falls over George Craig. Using fast footwork as his main protection and offense, he works with the grace and skill that is not often found in wrestlers of his weight and class.

The Italian government has ordered all automobiles in that country to be altered to the use of charcoal gas, generated upon them, by the end of 1931.
